**For Release:**  
December 5, 2002

RELEASE NO: 02 - 42

## **Notice to Mariners: Target Missile Launching December 12**

The NASA Wallops Flight Facility will support the U.S. Navy in the firing of a target missile from Wallops Island over the Atlantic Ocean 10 a.m. to 5 p.m., December 12. Surveillance of the area will begin at 7 a.m. The backup day for the mission is December 13. The area in the Atlantic Ocean that poses a danger to mariners during the project is posted on the Boaters Launch Information page under the Wallops web site at [www.wff.nasa.gov](http://www.wff.nasa.gov). Boaters are asked to remain clear of this area during operations.

Wallops will fly an orange blimp at 400 feet altitude over Wallops Island beginning at 30 minutes before the firings. The blimp will be lowered when the mission is completed and the danger to mariners no longer exists. In addition, boaters may tune to Marine Channel 12 to monitor the operations.

Completion of the mission will be noted on the Wallops launch status line at 757-824-2050.

Thank you for your assistance and support.
